

Vehicle spray and rain simulation tool.

- Creates perfect vehicle spray and rain
- Simulates the influence of rain and dispersed surface water
- Cost-effective, mobile simulation
- Easy attachment to any vehicle
- Easy to use, durable

TECHNICAL SPECIFICATIONS

Max. spray duration (non-stop)	60...90 s
Water tank size	100 l
Number of spray modules	4

Scope of supply

- 1 SprayMaker supply module aluminum box
- 1 SprayMaker pump module aluminum box
- 4 SprayMaker nozzle modules with different types of nozzles for heavy rain and spray
- 1 water tank (in vehicle)
- 1 set connection tubes, cables and connectors
- Remote control

Options

- SprayMaker Mud
 - 50 kg compatible mud powder
 - 16 nozzles for spray
 - 16 nozzles for heavy rain
- 1,000 l remote water tank incl. connection tubes and connectors
